LETTER OF THE DAY

It's time to look forward

NATASHA Fyles on the radio, blaming the CLP for everything that we're experiencing in the Territory at the moment.

Here's some news for you, Natasha, it started going wrong in 2000, when Labor first got in.

Unfortunately, I don't think we'll ever have the calibre of another Everingham, Perron, Coulter, Stone etc.

You know, Nat, politicians with vision.

I wish just once you would say something positive that the opposition has achieved.

Really sick of your negativity re: everything CLP.

JB, Alawa
