Reference for Terry M. Stone

Junior Technical Assistant "A"

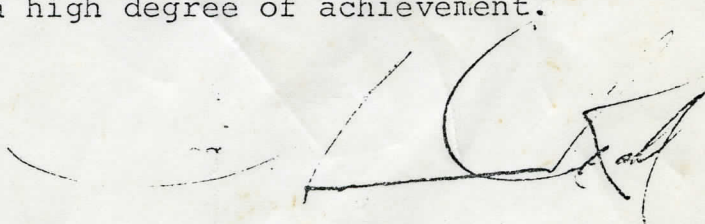

5.4.'76 - 16.2.'77

Terry Stone was selected from a large number of applicants to fill a responsible position in the Recovery Room and Operating Theatre as trainee anaesthetics technician.

In all aspects of his duties his performance was exemplary.

Among his most notable characteristics as an employee are his intelligence, sense of responsibility, reliability and, not least of all, his willingness to work hard and consistently to ensure the success of any project in which he was involved.

Any future employee may be assured of acquiring a team-member of above-average quality unfettered by personality defects which might otherwise impede progress towards a high degree of achievement.
