

# Lynne Peterkin

**TERRITORY  
NATIONALS  
FOR  
SADADEEN**

*let's get the Territory  
really moving again.*

**LYNNE PETERKIN - 20**

year Alice Springs resident,  
- Alderman, medical practice  
manager - wife and mother of three  
children - qualified teacher and mature-age  
student - energetic, competent, determined,  
caring, aware.

Community-minded, community-based,  
community-involved, Lynne Peterkin will  
bring to the Legislative Assembly your  
concerns.

Lynne Peterkin represents all that the  
National Party stands for in the Territory -  
individuality, enterprise, working for her  
family while helping others along - having  
a go and making a go of it.

Lynne speaks well, and will represent  
Sadadeen vigorously in the Legislative  
Assembly.

Lynne listens well, and will know what  
it is that you need her to do for you.

Lynne operates well, and will make sure  
that what she promises she will perform.

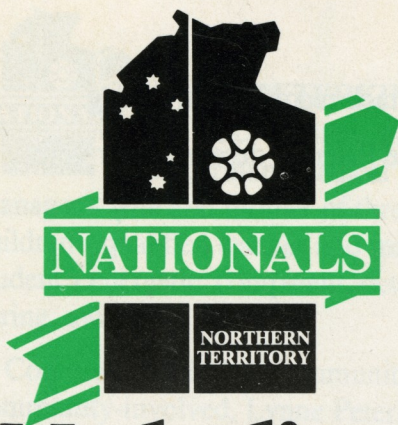

Friendly and approachable but strong  
and determined, Lynne will devote herself  
full-time to your interests and those of all  
Territorians.

Level-headed and realistic, she will not  
tilt at windmills in order to promote her  
own image; her ambition is to serve  
Sadadeen, and, through Sadadeen, all  
Territorians.

Her track record is convincing.

Lynne Peterkin deserves your vote.

# We believe

- in the enhancement of family life and all it stands for in the community.
- that initiative in all things should be rewarded and those prepared to work hardest receive rewards in accordance with their efforts.
- that our income taxes should be levied on the same single rate basis.
- in the free enterprise system for the benefit of employers, employees and self-employed people.
- that all Territorians should have the right to negotiate their own working conditions if need be.
- that the secret ballot principle be used in all union decisions because your vote as an individual is your confidential property.
- that Territorians have the right to responsibly manage and develop their own land and mineral wealth.
- in helping people to help themselves - and caring for those who cannot . . . the elderly, the sick and disabled.
- the integrity and potential of our youth - and their right to a secure, prosperous future.
- in a general need to lower government charges, reduce the size of the government and free people from bureaucratic control of life, work and business in both metropolitan and rural areas.

If you believe in these principles, you are a NT Nationals supporter.
