Dear Minister

### RE: DARWIN UNIVERSITY

While visiting The Granites, I understand you raised with Geoff Stewart the possibility of NFM endowing a Chair at Darwin University.

We are sufficiently interested by the concept to warrant further inquiry. Would you please provide me with some additional background, or direction as to whom I should contact in this regard.

My initial questions are financial, as to the dollars involved, and the nature of arrangements envisaged, and possible alternative; and technical, as to any particular faculties which we may consider.

Yours sincerely  
NORTH FLINDERS EXPLORATION
